About Institute of Indo-Aryan Studies

Institute of Indo-Aryan Studies (IIAS), formally set up in 2009, is an initiative of a group of professionals and devotees to conduct research and developmental work on the ideology of Sri Sri Thakur Anukul Chandra. Sri Sri Thakur Anukul Chandra (1888 – 1969) is a well known god man, in the order of Sri Ramakrishna Paramhansa. His life and activities was devoted to total elevation of personality in concordance with surrounding, by following ideology in thought and action. His ideology is scientific, non communal and is in line with the eternal essence of Indian culture. He was in fact the quintessential embodiment of dharma. Dharma and dharmic procedures have been given a shape by him, by intertwining with everyday life, thought, behavior, conduct and discipline; a progressive go indeed.
